Business planning checklist

Using the strength, weakness, opportunity, and threat (SWOT) analysis framework, develop a checklist of the key activities that need to be performed when preparing a formal business plan in the table, below.

Activity	Owner	Completion date
Strengths: Define the company's current mission statement.	Luca Richter	1/9/2023
Strengths: Identify market segments in which the company will participate by conducting primary and secondary market research.	Dylan Williams	1/9/2023
Strengths: Identify the company's value proposition and how it will differentiate itself within the marketplace.	Kristin Orav	1/16/2023
Weaknesses: Identify any barriers to market entry (for example, capital requirements, technical barriers, patents, and process barriers) that the company needs to overcome.	Flora Berggren	1/6/2023
Weaknesses: Identify any risks inherent to the organization that need to be mitigated so that the company can realize the business plan.	Flora Berggren	1/6/2023
Opportunities: Identify areas where the current market is underserved that provide an opportunity for the company.	Kristin Orav	1/6/2023
Opportunities: Identify any key processes, intellectual capital, or other resources that the company can use to its advantage in the marketplace.	Ian Hansson	1/9/2023
Threats: Identify primary competitors, and then analyze competitor performance by using all available data and additional data that can be verified.	Gaurav Cheema	1/9/2023
Threats: Identify secondary and potential future competitors that might affect the business plan.	Chela Arapelli	1/16/2023
Threats: Develop strategies for mitigating primary and secondary competitive threats.	Gaurav Cheema	1/16/2023
